Karen M. Wolper, Chief
CERCLA Removal Enforcement Section (3HW13)
U.S. Environmental Protection Agency, Reg. III
841 Chestnut Building, 6th Floor
Philadelphia, PA 19107

Dear Ms. Wolper:

Enclosed please find the information and documentation in Chevron U.S.A. Inc.'s possession which is responsive to the Environmental Protection Agency's recent Information Request regarding the Metro Container Corporation site.

Exhibit I is a listing of products contained in 55-gallon drums and the additives within each of the products that were manufactured and/or sold by Gulf Oil Corporation at its Philadelphia Refinery. Exhibit II is a listing of products contained in 55-gallon drums and the additives contained within each of the products that are manufactured and/or sold by Chevron U.S.A. Inc. at its Philadelphia Refinery. Exhibit III is a copy of the Material Safety Data Sheets available for each of the products specified in response to question no. 1.

These products are refined at Chevron's Philadelphia Refinery and are not hazardous substances as defined in CERCLA Sec. 101(14) nor are they pollutants or contaminants as defined in CERCLA Sec. 101(33). Therefore, Chevron respectfully requests that it be removed from EPA's list of potentially responsible parties for the subject site.

Please direct all future correspondence regarding this matter to my attention at the letterhead address or you may call me at (415) 894-3149.

Sincerely,

Daniel E. Vineyard
